Professor Theodore K. Rabb
U.S.A.

Dear Tad,

Some "Tachles" for your next meeting:

1. In coordination with Dr. Silen we are organizing an AD HOC review committee for our Medical School.

2. We want to establish a review committee for Chemistry. I have several names for candidate members: John Babcall suggested the name of George Pimental. What would be helpful is to find a key person that could be our contact for setting up the committee.

3. Soon I am about to receive a report of an interval AD HOC committee on the Life Sciences. When this is submitted I would appreciate a connection with some of the top biologists and academic administrators to evaluate the recommendation and examine how other institutions grappled with similar issues. So I want suggestions for 2-4 people.

I would also like to find out whether any of the members would agree also to be involved with the Visiting Committee of our Board of Governors which will be largely composed of lay members.

I hope that you will have a successful meeting and thank you for your efforts.

Have a beautiful Seder.

Sincerely yours,

Yoram
